EDUCATION

National Taiwan Normal University <i>B.S. in Computer Science and Information Engineering</i>	2014 - 2019
FLOLAC Summer School at National Taiwan University	2017, 2018, 2019
CONFESTA Summer School at University of Chinese Academy of Sciences	2018

EXPERIENCE

Institute of Information Science, Academia Sinica <i>Research Assistant</i>	2019 - Present
---	----------------

- (On-going) Developed bit-level hardware verification safety algorithm based on algorithmic boolean learning and its implementation which solves about 300 of 747 instances in HWMCC10 benchmark. Optimized implementation with improved algorithm which combines learning and interpolation method solves about 400 instances, where Berkeley's decades-old state-of-the-art tool ABC's interpolation algorithm solves around 600 instances on the same computer.

AIG input parser, solver interface, program data structures, profiling and logging, memory arena, and backend algorithm engines are independently implemented in C++ with minisat.

Institute of Information Science, Academia Sinica <i>Adjunct Research Assistant</i>	2017 – 2019
---	-------------

- SAT-solving reduction of poset cover problem for message sequence chart synthesis implemented in Python with z3.
- NP-hardness of k-anonymity checking problem and a randomized approach thereof for the 2010 Taiwanese census data implemented in Python with MySQL.

Inside.com.tw <i>Software Engineering Intern</i>	2016
--	------

- Backend Wordpress theme development; collaboration and communication with frontend team.
- In-house editor user-interface feature requests for editorial team.

Inside.com.tw <i>Editorial Intern</i>	2015
---	------

- Coverage, interviewing, and reporting on technology and startup related scenes.

AWARDS & CERTIFICATES

Academic Excellence Award <i>Ranked top 5% in a class</i>	2016
---	------

TOEFL iBT <i>Score: 108 (Reading: 29 / Listening: 30 / Speaking: 22 / Writing: 27)</i>	2016
--	------

TOEIC <i>Score: 960</i>	2013
-----------------------------------	------
